caddy: bio-based plastic (plant derived)
handle: cork

A PERSONAL DESK CADDY FOR THE OFFICE-IN-MOTION.

A good desk caddy is a worthwhile companion for today's dynamic work environment. 50/50 is not only useful, it's made from 3D printed bio plastic (which means it is derived from plant waste instead of oil). The 100% cork handle has a low ecological footprint because it is both recyclable and biodegradable.
